

Version A
(slim aluminum frame)

Version B
(frameless)

3-in-1 Smart Mirror

Function

1 Three-in-one control

Smart control 
 Mobile phone APP Bluetooth/ WIFI double modes

Touch switch

Remote control

2 Smart settings

Download the Tuya app to enjoy a smarter home life

16 Million colors

Warm white to daylight

Scene simulation

Music, lighting and rhythm function

3 Music, lighting and rhythm function

Under the RGB mode, the lighting will change as the music changes

4 Color Settings

RGB Color Settings

3 Color Settings: 6000K-4000K-3000K

RGB

3 Color Settings:6000K-4000K-3000K

6000K

4000K

3000K

5 Intelligent one-button defogging function

Turn on the one-button defogging function, immediately get a clear vision, no need to wait for dressing

Electric heating
partial defogging function

6 Stepless Dimming

Intelligent touch switch, adjust color and brightness as you like

100% Brightness 75% Brightness 50% Brightness 25% Brightness 5% Brightness

7 High Definition Imaging

5MM HD environment-friendly silver mirror, no deformation, high distortion, clear imaging, anti-corrosion, fast fog dispersion

8 5MM High Definition No Bronze Silver Mirror

More Durable /High Definition /Anti-Oxidation /Multi-Layers Protection

9 Safe explosion-proof

High viscosity protective film with explosion-proof glass, broken without splash, to keep you and your family safe

10 Support horizontal and vertical hanging

The mirror hangs horizontally

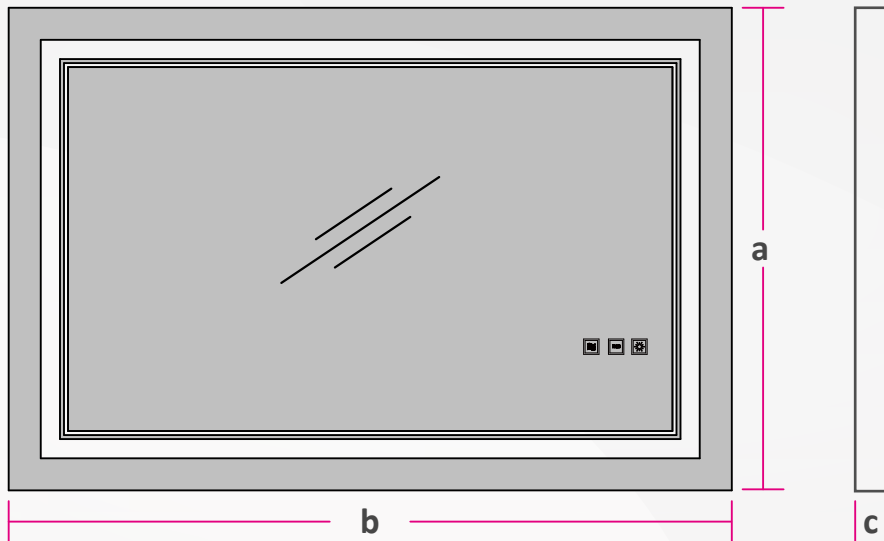

The mirror hangs vertically

11 Support hardy hole and hook, two quick installations

12 The mirror fits seamlessly into the wall

Defogging touch switch

RGB Lighting switch

Lighting switch

User guide of LED smart mirror

- ◆ The switch button is a light touch switch with high sensitivity
- ☑ Defogging touch switch
Button showing blue for standby, click touch button once showing white for work, long press touch button 5-8S to enter the mobile phone connection state (flash lightings)
- ☑ RGB touch button
Click touch button once to turn on the function, double-click the touch button to close, single touch to change 8 colors, long press the touch button 3S to adjust the brightness (brightness is infinitely switched from 5%-100%)
- ☑ Color temperature touch button
Click the touch button once to open, double-click the touch button to close, single touch to change 3000K- 6000K, long press the touch button 3S to adjust the brightness (steplessly switching brightness from 5%-100%)

Installation tools

◆ Installation (hook)

1. Draw a 0.5 meter horizontal line on the wall with the gradienter

2. Use the hook to attach the horizontal line, use the pencil to draw 3 points through the screw hole

3. Drill 3 holes on the 3 points with percussion drill, and insert rubber plugs, stick the hooks on the wall and screw in the screws.

4. Hang up the mirror and two people is suggested to operate

5. The mirror is close to the wall and the installation is completed

◆ Installation (hardy hole)

1. Measure the center distance of the two hardy holes in the frame with the measuring tape

2. According to the measured distance, use the pencil to draw 2 points on the wall

3. Drill 2 holes on the 2 points with percussion drill, and insert rubber plugs, screw in the screws.

4. Hang up the mirror and two people is suggested to operate

Stick the mirror to the wall so that the frame slides into the hanging strip

5. The mirror is close to the wall and the installation is completed

Application

Widely used in home, hotel, office, shopping mall, and other places

Application

Widely used in home, hotel, office, shopping mall,
and other places
