

LED Panel Light G Series

160
lm/w

145
lm/w

CRI
≥80

CE

RoHS

 Warranty
5 years

Description

- LED Square Panel Light can perfectly replace traditional downlight. Using Light Guide Plate, it has the feature of uniform and smooth light beam, low glare rating, low light pollution, and excellent protection from eyestrain. It can be widely used as interior lighting in shops, supermarkets, malls and hospitals, etc

Features

- Adopt simple structure, easy to assemble;
- Energy-saving and eco-friendly, CE RoHS compliant;
- Select edge-lit structure, more uniform and softer light;
- High-efficient thermal management design, LEDs and power supply work in low temperature, high stability of continuous working;
- RAL9003 white lamp body, modern and simple design.
- Standard warranty: For PS LGP, it is 3 years warranty, For PMMA LGP, it is 5 years warranty

Aluminum housing

- Aluminum alloy material, good heat dissipation performance

High color rendering

PMMA light guide plate, anti-UV

- PMMA light guide plate, anti-UV, anti-yellowing

Anti-glare design

- Anti-Glare lampshade, protect the eyes, Low UGR

High efficiency

- 145lm/w and 160lm/w high efficiency for optional

Flicker free LED driver

- Constant current design, THD<15%

Long Life time

50000

hours

Applications

Suitable for hotels, conference rooms, factories, offices, commercial purposes, institution buildings, schools, colleges, universities, hospitals and other places which needs energy saving and high color rendering index lighting.

Electrical Connection

Installation Instructions

Embedded Installation

① Drill Holes

Move the corresponding-size plasterboard away

② Connect the power

③ Put the lamp into the ceiling

Surface Installation

① Tools

② Accessories

③ Mark position line

④ Drill holes

⑤ Install rubber plug

⑥ Fix ceiling frame

⑦ Connect ceiling frame with plastic corner brace

⑧ Install lamp and connect ceiling frame with corner brace

1. Push the panel light into the track of ceiling frame
2. Connect ceiling frame with corner brace to ensure seamless connection

⑨ Installation finish

Suspendent Installation

Tool

electric hammer drill hammer

slotted screwdriver
cross screwdriver

plastic anchor x 2 screw x 2 pendant rope x 2

Installation accessories

ceiling cap
snap spring
pendant rope of ceiling end
T-shape screw bolt
bolt of clamping rope
wire clamp on Y end
suspendent rope on Y end

headless screw

exploded drawing of pendant rope

Installation steps

1. disassembling figure

1. Unscrew wire clamp
2. Unscrew T-shape bolt
3. Unscrew headless screw on suspendent rope of the Y end with slotted screw, take out suspendent rope of the Y end.

2. Installation diagram

reference dimension

3. Drill a hole

Drill a hole with electric hammer drill

4. Install rubber plug

Hammer rubber plug into drilled hole ;

5. Fasten ceiling cap

1. Unscrew ceiling cap;
2. Thread screw through ceiling cap, and fasten it into rubber plug with cross screwdriver.

6. Install wire clamp

1. After the screw is fixed, thread the disassembled wire clamp through hole in the ceiling cap, then rotate it right-handed to tightening it; 2. Adjust rope length.

7. Install suspendent rope on Y end

1. Thread suspendent rope through inner hole of lamp bracket;
2. Repeat step 1, install another suspendent rope on Y end on adjacent side of panel light.

8. Fasten suspendent rope on Y end

1. Thread Y-end suspendent rope through wire clamp and bolt of clamping rope, and tightening it; the thread head can't through the clamping rope too much, and about 3mm is OK;

9. Fix suspendent rope on fixed end

1. Twist T-shape bolt between wire clamp on Y end, repeat above step, installation finish.

10. Installation finish

Notice

1. Please read the specification first, to make sure the service environment matches the condition in the specification before using.
2. Please confirm the applicable power supply before using.
3. Make sure the switch of product is off before connect to the power supply to prevent electric shock.
4. Operation against rules may damage your property even harm to your personal safety.
5. Preliminarily estimate required quantity of LED panel lights, then according to the power rating of single panel light to figure out the total power and design power supply plan.
6. Dangerous high voltage, Non-professionals are not allowed to maintain the products.
7. If the exterior flexible cable or wire is damaged, it must exchange by the supplier, its agent or other similar qualified personnels to avoid dangers.
